

# NMISA training courses – Register today

## NMISA Training Centre offers a variety of courses:

### Physical Metrology

- Basics of Electrical Metrology and Measurements | 12 – 14 March 2024
- Non-contact Thermometry Metrology | 27 – 31 May 2024
- Mass Metrology course for High Accuracy: OIML class F to E | 3 – 7 June 2024
- Basic Principles of Metrology | 29 – 30 July 2024
- Volume Metrology | 12 - 16 August 2024
- Introduction to Dimensional Metrology | 29 – 30 August 2024
- Fundamentals of Torque Metrology: Practical approach | 9 – 13 September 2024
- Fundamentals of Force Metrology: Practical approach | 16 – 20 September 2024
- RF & Microwave Metrology Fundamentals | 23 – 27 September 2024
- Advanced Dimensional Metrology | 7 – 11 October 2024

### Chemical Metrology

- Introduction to ICP-OES and ICPMS techniques | 12 – 23 February 2024
- Liquid Chromatography and Mycotoxin Winter School | 27 May – 7 June 2024
- Gas Chromatography | 24 June – 5 July 2024
- Pesticides Winter School | 8 – 19 July 2024
- A basic introduction to ICP-OES and ICPMS techniques, Toxic Elements in Food | 15 – 26 July 2024
- Method Validation for testing laboratories | 14 – 16 October 2024
- Uncertainty of Measurement for testing laboratories | 28 October – 30 October 2024
- Understanding ISO 17034 | 11 – 15 November 2024
- Understanding ISO 17043 | 17 – 21 February 2025

### Other training courses:

- Introduction to Laser Safety | 6 March 2024
- Understanding ISO/IEC 17025:2017 | 20 – 21 May 2024
